---

## Frontend Developer

I'm building responsive websites by developing and maintaining better Frontend code for more than 4 years

---

## Skills

- Good at HTML5, CSS3, JavaScript (JS), Bootstrap, Sass, Less, jQuery, XML, JSON, AJAX, Knockout, RequireJS, Gulp, Git, GitLab, and GitHub.
  - Fair knowledge of PHP, Tailwind, Grunt, Jira, Bitbucket, Photoshop, and Figma.
- 

## Work Experience

### Senior Magento Frontend Developer

Sep 2020 – Present

#### Reyton

- Expert in building top-quality Magento 2 (E-commerce platform) storefront themes' reusable cross-browser compatibility code following best practices and internal code guidelines alongside the Frontend development skills.
- Achieving a 25% increase in performance by developing and testing high-quality scalable Magento Frontend responsive code to meet clients' needs and requirements.
- Flexibility to develop several projects and multitasking at a time.
- Using Knockout JS (MVVM "Model-View-View-Model" pattern) to build the Magento 2 checkout pages' functionalities.
- Working with Reyton's custom extensions like Countries, Guest Wishlist, Helpdesk, Locale, Menu, Widgets, and lots more customized extensions.
- Excellent communication with other teams (Backend, QA, Project Managers "PM", DevOps, Production) and cooperation with coworkers to prioritize projects and tasks.
- Attention to detail and using the reverse engineering technique to trace and troubleshoot JavaScript conflicts, technical issues, and bugs in addition to reducing page loading time by 50%.

### Frontend Developer (Magento | Joomla)

Jul 2019 – Present

#### Freelance

- Proficient in understanding clients' requirements and translate them into technical solutions that optimize the user experience and follow coding standards.
- Perform manual code reviews and review results of automated tests to adhere to standards.
- Familiar with Agile methodology practices and the software development lifecycle.
- Organize tasks and manage time by providing accurate estimates on work items.
- Skilled in using admin configurations and command line interface (CLI) to perform tasks.
- Work with different themes like Porto, Hyva, Athlete, Alothemes, Minimog themes, and Dukamarket.

## Magento Frontend Developer

Aug 2020 – April 2021

iBdaa3

- Work on the Porto responsive Magento 2 E-commerce store theme.
- Work on the Vnecomms multi-vendor E-commerce extensions.
- Working with a lot of different extensions like Mageplaza and Mirasvit.

## Magento Frontend Developer

July 2018 – Jun 2019

Best Response Media

- Build Magento 2-based E-commerce websites by translating UI design templates and Wire-frames to custom storefront themes.
